PREFAB

SYSTEMS

LAUFEN

Pre·fab

['pri:fɛb] noun

prefab = prefabricated;

Prefabricated installation module in sanitary engineering; industrially manufactured, pre-assembled unit that is fully prepared in the factory and only needs to be installed on site. Used for quick, precise and standardized installation.

synonym: effectiveness; perfect fit;

The optimal solution for anyone who wants to save time and money.

PREFAB - PRE THINK

COSTS & COST-EFFECTIVENESS

‘CAN I SET REALISTIC PLANS FOR MY COSTS
AND REDUCE THEM?’

QUALITY, SAFETY &
SUSTAINABILITY

‘WILL I GET A HIGH-QUALITY, SECURE AND
FUTURE-PROOF SOLUTION?’

LAUFEN

PREFAB - PRE THINK

There are so many things to think about when starting a new construction project. With LAUFEN Prefab, you are not only choosing quality MADE IN GERMANY, but also a comprehensive service.

We consider your problems and find the best solutions in advance.

PREDICTABILITY
& FLEXIBILITY

‘CAN I BE SURE THAT EVERYTHING WILL
WORK OUT, DESPITE COMPLEX
REQUIREMENTS?’

TIME &
LOGISTICS

‘HOW CAN I PREVENT TIME LOSS ON
THE CONSTRUCTION SITE?’

ADVANTAGES

AS REQUIRED

- tailor-made prefabricated solution that fits your project perfectly
- complete service and coordination by LAUFEN PREFAB Business

ACCORDING TO PLAN

- ideal planning of construction processes
- coordination and determination of delivery dates
- on-time delivery to the construction site
- faster commissioning and utilization

EXCELLENT SERVICE

- professional planning support from our qualified engineers and planners
- consulting, measuring and, if necessary, on-site instruction

ADVANTAGES

COST-OPTIMIZED

- pre-calculation without hidden costs for all parties involved
- reduced on-site labor costs; shorter installation times
- renovation possible while the building is inhabited, reducing rental losses

EASY TO INSTALL

- brief installation time due to pre-fabricated plug & play installation wall
- includes fire protection and sound insulation
- full installation equipment is included in the scope of delivery

LAUFEN

IN JUST 5 STEPS

1

CUSTOMIZED REQUIREMENTS PROFILE

We discuss requirements and strategic goals for the project together with all involved in the project.

2

CONCEPT DEVELOPMENT

We develop and create a concrete offer for PREFAB systems – based on your floor plan, including all necessary components.

3

PRODUCTION DRAWING

Once we receive your order, we will clarify the delivery parameters and start creating drawings for production (adjustments possible).

TOWARDS YOUR GOAL

4

CONFIRMATION OF THE PRODUCTION DRAWING

Once the customer has signed the production drawings, we begin with the final production plan.

5

PRODUCTION, DELIVERY, INSTRUCTIONS

Your complete PREFAB system solution is manufactured and delivered to the construction site just in time. If required, our technical staff is available on site.

YOUR PROJECT IS OUR TASK.

LET US CONNECT AND GET STARTED TOGETHER.

LAUFEN

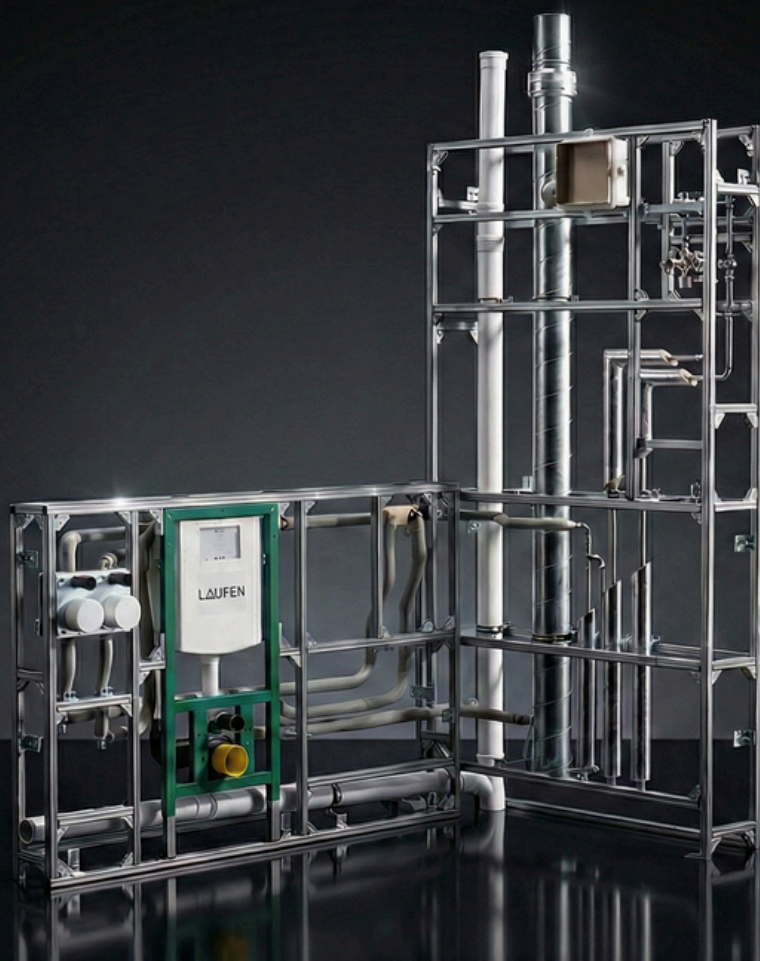

EXCELLENT SERVICE

THE COMPLETE PACKAGE FOR YOUR BATHROOM

LAUFEN offers first-class design solutions that are perfectly matched to functional components in the field of sanitary ceramics, fittings, bathroom furniture and all kinds of useful accessories.

LAUFEN

WE COMBINE PRACTICALITY WITH BEAUTY

Regardless of the design decision, all LAUFEN products are compatible with each other – both in front of and behind the wall. The functional parts manufactured in Germany guarantee technical quality, for which we stand with our name.

PERFECT FIT FOR ...

BUILDING TYPES

OFFICES

APARTMENTS
HOUSES

PREFAB is generally suitable for all construction projects with many units and similar floor plans, regardless of whether they are new builds or renovations.

LAUFEN

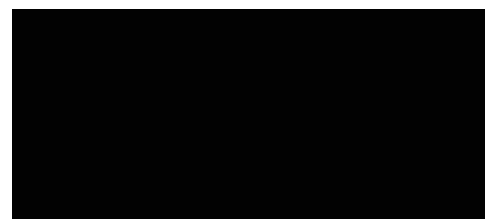

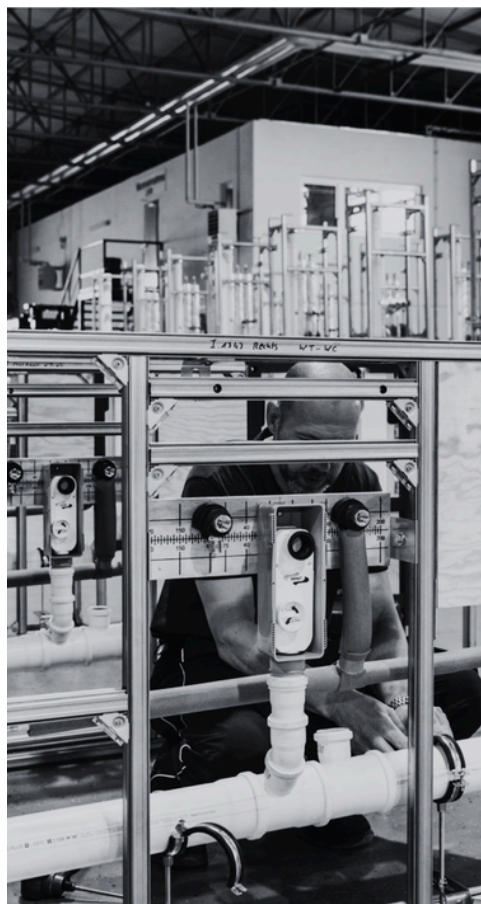

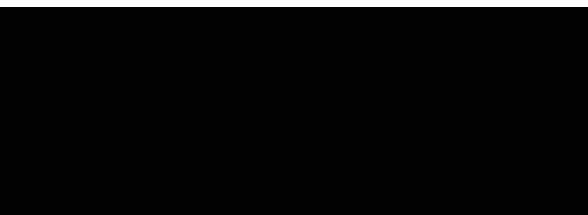

MADE IN GERMANY

quality as a guarantee

The site in Germany has been in operation for more than 80 years. This includes over 30 years of experience and expertise in PREFAB construction. From development and production to quality assurance, our installation system is German craftsmanship, in which we only use premium components and pipes from European quality manufacturers – ready for connection to the press tools you are familiar with.
